High-Level Meeting of Law Enforcement and Anti-Corruption Authorities

20 June 2024, Vilnius, Lithuania

JOINT STATEMENT

As heads and senior representatives of national and international law enforcement and anti-corruption authorities, who gathered at the 21st International Anti-Corruption Conference on 18-21 June 2024 in Vilnius, Lithuania, we stand united in our commitment to combatting high-level corruption and upholding the rule of law. Corruption at the highest levels of government and business infringes human rights, undermines the rule of law, erodes public trust, distorts economic markets, hampers sustainable development efforts and might even threaten security and stability of a particular state or region.

In accordance with the United Nations Convention against Corruption and other relevant international instruments, to the extent each state (organisation) is bound to, we reaffirm our commitment to promoting transparency, accountability, and integrity in all aspects of governance. We call all national and international law enforcement and anti-corruption authorities to work together to strengthen investigative and prosecutorial capabilities to hold accountable those who engage in corrupt practices at the highest levels of power.

We emphasize the importance of international cooperation and information sharing in combating high-level corruption. We reaffirm the need to enhance collaboration among law enforcement agencies and anti-corruption authorities to effectively detect, investigate and prosecute cases of high-level corruption across borders.

We recognise the critical importance of enhancing skills, allocating resources, and implementing effective strategies to detect well-hidden, sophisticated schemes of high-level corruption and associated financial flows. The evolving nature of corruption demands a multifaceted approach that leverages advanced technological tools, specialised expertise, and international cooperation.

We highlight the need for continuous training and capacity-building programs to equip law enforcement agencies and anti-corruption authorities with the necessary skills and tools to uncover complex corruption schemes. Investing in cutting-edge forensic capabilities, data analytics, and financial intelligence is paramount to staying ahead of increasingly sophisticated methods employed by corrupt actors.

We recognise the complexities involved in holding powerful individuals and entities accountable for corrupt practices, including legal loopholes and political influence. To overcome these challenges, we advocate for robust legal frameworks, strengthened investigative capacities, and independent judicial systems.

We reaffirm the need to protect whistleblowers and create a safe environment for individuals to report instances of high-level corruption without fear of retaliation. Whistleblowers play a crucial role in exposing corruption and holding perpetrators accountable.

We recognize the need to engage with civil society and the private sector in our efforts to combat high-level corruption. By working together in a spirit of partnership and collaboration, we can strengthen our collective impact and advance our shared goal of encouraging transparency and promoting integrity in public life.
Together, we pledge to uphold the highest standards of ethical conduct, accountability, and transparency in our own institutions. We will lead by example and demonstrate our unwavering commitment to combatting high-level corruption wherever it may occur.
