

## **Expert Mission on European experience in control over procurement**

Session 3: The Qualification System for economic operators - public contracts of works.

Mr Filippo Romano, ANAC

18 November 2020

## Art. 64 –Directive 2014/24-Official lists of approved economic operators and certification by bodies established under public or private law

Member States may establish or maintain either official lists of approved contractors, suppliers or service providers or provide for a certification by certification bodies complying with European certification standards within the meaning of Annex VII.

They shall inform the Commission and the other Member States of the address of the certification body or the body responsible for the official lists, to which applications shall be sent.

Member States shall adapt the conditions for registration on the official lists referred to in paragraph 1 and for the issue of certificates by certification bodies to the provisions of this subsection.

## Art. 64 –Directive 2014/24-Official lists of approved economic operators and certification by bodies established under public or private law

Economic operators registered on the official lists or having a certificate may, for each contract, submit to the contracting authority a certificate of registration issued by the competent authority or the certificate issued by the competent certification body. Those certificates shall state the references which enabled those economic operators to be registered on the official list or to obtain certification and the classification given in that list.

Certified registration on official lists by the competent bodies or a certificate issued by the certification body shall constitute a presumption of suitability with regard to requirements for qualitative selection encompassed by the official list or certificate. Information that can be deduced from registration on official lists or certification shall not be questioned without justification.

Art. 213, paragraph 3, point f) - Legislative decree No. 50

f ) supervises the qualification system for executors of public works contracts with sanctioning powers

Article 84 Legislative decree No. 50 (Economic Operators Qualification System)

- Work Contracts of amount beyond 150.000 €. For contracts of amount beyond 20 million of € Contracting Authority may ask additional economic proofs
- Qualification Certificate released by private companies (certification bodies) authorized by ANAC
- Duration of the certificate 5 years with an intermediate verification (after 3 years)
- Qualification system is based on types of works and economic thresholds established in the secondary legislation. The secondary regulation gives also rules for qualification activity and for the annulment of certificates

## Article 84 Legislative decree No. 50 (Economic Operators Qualification System)

Certification Bodies must comply in the qualification activity with the principle of independence of judgment, ensuring the absence of any commercial or financial interest that may lead to non-impartial or discriminatory behavior.

The Certification Bodies carry out public functions in the qualification activity

By issuing the Qualification Certificate, Certification Bodies certify:

- The absence of exclusions grounds
- The selection criteria
  - a) suitability to pursue the professional activity;
  - b) economic and financial standing;
  - c) technical and professional ability.
- The possession quality certificate ISO UNI EN 9000
- The certification of the Economic Operator's rating released by ANAC
